

SARAH CANNON

PRESENTS A CME OPPORTUNITY FOR YOU...

COLLABORATING TO PROVIDE COMPREHENSIVE CANCER CARE:

A discussion between primary care providers
and the oncology multidisciplinary team*

HILTON HOTEL - DOWNTOWN NASHVILLE

APRIL 16, 2012

5:00-9:00 P.M.

The Center for Research and Education designates this live activity for a maximum of 2.5 AMA PRA Category I Credit(s)[™].

INFORMATION

This course is designed for primary care practitioners (PCPs) to formulate a common approach to understanding various cancer types and emerging strategies in screening, diagnosis, treatment and follow-up through a multidisciplinary, multi-topic live event. This CME activity is expected to result in increased confidence when working in collaboration with the Oncology multidisciplinary team to make appropriate diagnosis, provide effective treatment and referral, or follow-up care with the overall goal of improving patient outcomes. Preferred topics for discussion include, but are not limited to, the following:

1. Screening, early detection, and rapid diagnosis
2. New systemic therapies, surgical options, and radiation therapy delivery
3. Cancer protocols
4. Further education and understanding on management of common tumors
5. Patient education
6. Coordinating care and adverse events/side effects of treatment

TARGET AUDIENCE

This activity is intended for active primary care physicians, physician assistants, and advanced practice nurses involved in the care and management of patients.
